

Jessie Desunvile Nedhool

Date of birth: 23/08/2002 | **Place of birth:** Mantua, Italy | **Nationality:** Italian, Mauritian |

Gender: Female | **Phone number:** (+230) 58800524 (Mobile) | **Email address:**

d.jessienedhool@gmail.com |

Address: Hospital Road, Bois Rouge, Pamplemousses, Mauritius (Home)

● EDUCATION AND TRAINING

15/01/2018 – 30/11/2019 Ilot, Mauritius

CAMBRIDGE SCHOOL CERTIFICATE (O - LEVEL) Rabindranath Tagore Secondary school

15/01/2020 – 30/11/2022 Ilot, Mauritius

CAMBRIDGE HIGH SCHOOL CERTIFICATE (A - LEVEL) Rabindranath Tagore Secondary school

01/07/2024 – CURRENT Reduit, Mauritius

BSC (HONS) APPLIED COMPUTING University of Mauritius

● LANGUAGE SKILLS

Mother tongue(s): **ITALIAN** | **KREOL MORISIEN**

Other language(s): **ENGLISH** | **FRENCH** | **HINDI**

● PROJECTS

CasaBlog - A blogging website for Mauritius

- Built CasaBlog, a blogging website for the Mauritian community, using HTML and CSS to create a clean, responsive multi-page layout with intuitive navigation

Python OOP RPG game

- Built a Python RPG game with a Tkinter GUI, applying OOP principles (classes, inheritance, encapsulation) and frame-based scene management for storyline progression

Pet adoption website

- Integrated a MySQL database with a PHP web application, enabling dynamic content rendering and user data persistence
- Connected a backend database to a live web application, implementing CRUD operations via server-side scripting

30/08/2025 – 31/08/2025

RTX coding (IEEEmdxthon 2025 - 24 hour web dev hackathon)

- Groot → Immersive game + leaderboard
- Stark → Real-time financial dashboard
- Spiderman → Mission planner & tracker
- Dr. Strange → AI knowledge system
- Showcased full-stack skills, AI integration, and UI/UX design
- Balanced fun + functionality across diverse use cases
- Designed our own logo using Procreate

JIRA-SSIC – AI-Powered Agile Story & Test Case Generator

- Developed and integrated machine learning models to automate the generation of agile user stories and test cases, reducing manual effort in sprint planning
- Collaborated in a team environment to integrate an AI-powered Jira agent into an agile workflow, bridging the gap between requirements and test coverage

Pharmacy Management System – Java Desktop Application

(Group project, team of 4)

- Led development of the Sales & Billing module, including cart management, stock validation, and receipt generation
- Built the GUI using Java Swing, covering screens for customer selection, medicine search, and checkout.
- Implemented database connectivity to handle all sales transactions, inventory updates, and customer records
- Applied OOP principles including inheritance, polymorphism, and encapsulation to structure the system's core classes

Sakura Sip - RESTful API –Laravel Web Application

- Designed and implemented a fully functional RESTful API using Laravel, following MVC architecture with dedicated controllers, models, and API resource classes
- Built structured JSON endpoints for managing café resources, supporting full CRUD operations with input validation and error handling
- Integrated a MySQL database using Laravel's Eloquent ORM, handling relational data and route grouping for clean API organisation

• HOBBIES AND INTERESTS

Cosplay, Crochet, Baking, Swimming

• SKILLS

Technical Skills

- **Languages:** Python, Java, Javascript, PHP, SQL, HTML, CSS
- **Frameworks And Libraries:** React, XML, Java: Swing
- **Concepts:** OOP, REST APIs, Agile/scrum
- **Tools & Platforms:** Github, VS Code, XAMPP, MangoDB, IntelliJ, Jira Agent, SAP S/4hana, Adobe Photoshop
- **Networking:** Hands-on experience with Cisco equipment, TCP/IP, subnetting, Network troubleshooting and VLANs through university lab sessions.

• EXTRACURRICULAR

Extracurricular & Achievements

- Awarded the Duke of Edinburgh International Bronze Award, completing volunteering, physical, and skill-based components
- Served as Prefect in Grade 12, supporting school leadership, discipline, and event organisation.
- Participated in the Inter-College Sports Olympiad.
- Organiser at the Computer Club, University of Mauritius, coordinating tech events and activities for members.
- Represented school as a delegate at the MGI Inter-College Model United Nations (MUN) conference, developing research, debate, and diplomacy skills
